

Supplies List for "One or Two Day Fusing/Fabric Painting Workshop"

Lenore will have some of the tools available for purchase if students aren't able to find them: 18 mm and 28 mm rotary cutters, craft knife like Exacto, small scissors, large tweezers, paint brushes, fabric paint sets, permanent glue

Iron: small travel if possible hot enough to be able to fuse with (some places require auto-shut-off)

Rotary cutters: 18 mm (optional) and **28 mm (the most practical rotary cutter available)**

Cutting mat

Scissors: regular (embroidery optional)

Large tweezers like for beading (optional)

Black Ultra Fine Sharpie plus regular Fine Sharpie

Masking tape - beige

Pencil

Exacto knife with fine blade

Ironing pad to use for fusing: **A Suggestion from Lenore:** *Make yourself a small ironing pad by cutting a piece of foam core an appropriate size for your travel bag about 12" square and covering it with cotton batting attached with a hot glue gun on the back of the foam core.*

Waste sack (very messy technique)

Patterns are brought to class by Lenore. Select your fabric from the Fabric Requirements Page on her website at <http://www.lenorecrawford.com/fabric-requirements.html> for the pattern you choose to do in class. Choices for this workshop are Yellow Poppies, Yellow or Magenta Cone Flower, One Poppy, and Red Poppies patterns since they are the least complex for beginners. Students can choose other patterns if they prefer, but these are the simplest to do.

Fabric according to pattern requirements: Background fabric is needed for these patterns also at least 20" X 25" (50 cm X 65 cm). *When choosing your fabrics for the pattern, choose fabrics that have a gradation in tone from light to dark of similar colors. Make sure you can see the difference between each shade of fabric. This helps your design to have more depth.*

Paint brushes: ½" angular, ¼" angular, 1/8" angular, 0. *Look for very very small angular brushes if you can't find these exact numbered brushes.* This is a good mix of sizes from very very small to medium; I like to have very fine brushes for detail work. Painting is demonstrated in this class. Students can begin to paint on their projects if they have finished fusing them so bring brushes if you think you might want to do this. **Lenore will have these brushes in class for purchase if preferred. If you want to try painting in class, please have at least the 1/8" angular brush or purchase one from Lenore in class.**

Lenore supplies the following: \$15 supplies fee paid in class

Pattern chosen from, 2 yds fusible web (Misty Fuse), parchment paper, freezer paper, fabric paints for use in class (Lenore does not share paint brushes), paper plate and cup – Lenore will demonstrate how to use fabric paints in this class
